RESOLUTION
TOWN OF UNION

90-4

Resolution is made to grant the Department of Natural Resources, State Forest Ranger authorization to mark/designate fire number posts at structure sites in the Pine area of UNION township. Designations will be made to provide warning to fireman of inadequate driveways and fire prone structure sites. It is understood that the State Forest Ranger will notify the Town Chairman when this activity takes place and that the effort will be concurrent with fire prone property inspections. The only authorization to change designations will be that of the State Forest Ranger, Town Chairman and Fire Chief in consultation with each other. This resolution is a life-safety effort. It is made primarily in the interest of reducing risk to fireman and fire apparatus during a forest fire. The citizenry of this township are encouraged by this Board to reduce all fire prone hazards around their property.

Approved: Town of UNION
